ENVIRONMENTAL SCIENCE

Paper 2 (Generated practice paper - Set 33)

Assessed: The living environment, Biological resources, Sustainability, Research methods

Time allowed: 3 hours

Materials

For this paper you may use:

- a calculator.

Instructions

- Use black ink or black ball-point pen. Pencil should only be used for drawing.
- Fill in the boxes at the top of this page.
- Answer **all** questions 1 to 10 and **one** essay from question 11.
- You must answer the questions in the spaces provided. Do not write outside the box around each page or on blank pages.
- Do all rough work in this book. Cross through any work you do not want to be marked.

Information

- The marks for questions are shown in brackets.
- The maximum mark for this paper is 120.
- All questions should be answered in continuous prose.
- You will be assessed on your ability to:
 - use good English
 - organise information clearly
 - use specialist vocabulary where appropriate.

TOTAL	

Answer all questions in the spaces provided.

0 1 . 1

Describe how DNA databases are used to control the illegal trade in tropical timber and ivory.

[3 marks]

.....

.....

.....

.....

.....

.....

0 1 . 2

Explain the difference between radio / GPS tracking and acoustic tracking and state when each is used.

[2 marks]

.....

.....

.....

.....

0 1 . 3

Give **three** types of carrier system used to move sensors to study areas and one advantage of drones for ecological monitoring.

[3 marks]

.....

.....

.....

.....

.....

.....

0 1 . 4

Explain how motion-sensitive cameras and CCTV reduce disturbance to wildlife compared with direct observation.

[2 marks]

.....

10

0 2 . 1

Describe a polyculture system using several species of carp and explain how it increases total productivity.

[4 marks]

0 2 . 2

Explain how integrated multi-trophic aquaculture (IMTA) and aquaponics reduce pollution while increasing food production.

[4 marks]

0 2 . 3

Explain why tuna aquaculture cannot yet replace tuna fishing.

[2 marks]

10

03 . 1 Explain how each of the following reduces the environmental impact of fishing.
[8 marks]

Square-mesh escape panels

.....

.....

.....

Minimum and maximum catchable sizes

.....

.....

.....

No-take zones

.....

.....

.....

Closed seasons

.....

.....

.....

03 . 2 Explain why catch quotas work well for pelagic species such as mackerel but poorly in mixed demersal fisheries.

[2 marks]

.....

.....

.....

10

04 . 1

State the Brundtland Commission (1987) definition of sustainable development.

[1 mark]

04 . 2

Explain why activities such as slash-and-burn agriculture, fishing and sewage discharge can be sustainable with a small human population but not with a large one.

[3 marks]

04 . 3

Explain why urban populations are often less aware of unsustainable exploitation than rural communities.

[2 marks]

04 . 4

Describe **two** negative feedback mechanisms in natural systems and explain how human responses can override them.

[4 marks]

10

0 5 . 1 Explain how each of the following agricultural changes affects wildlife habitats.
[6 marks]

Drainage of wet grassland

.....

.....

.....

Application of fertiliser to a species-rich meadow

.....

.....

.....

Removal of hedgerows to enlarge fields

.....

.....

.....

0 5 . 2 Explain why some farmland habitats are valuable for wildlife conservation.
[2 marks]

.....

.....

.....

.....

0 5 . 3 Describe how agriculture contributes to climate change.
[2 marks]

.....

10

06 . 1

Explain how the relationship between coral polyps and zooxanthellae allows reefs to support a high biomass in nutrient-poor tropical seas.

[4 marks]

06 . 2

Describe the abiotic conditions needed by reef-building corals and explain why these make reefs vulnerable.

[3 marks]

06 . 3

Explain **three** ways in which coral reefs are important to humans.

[3 marks]

1

.....

2

.....

3

.....

10

0 7 . 1

Describe how each of the following abiotic factors can be managed to increase biodiversity in a nature reserve.

[6 marks]

Light

.....

.....

.....

Dissolved oxygen

.....

.....

.....

Nutrients

.....

.....

.....

0 7 . 2

Explain how biotic factors can be managed to increase the survival of a species. Give **four** examples.

[4 marks]

.....

.....

.....

.....

10

08 . 1

Which of the following is a feature of natural systems? Tick **one** box.

[1 mark]

A Reactions that require high temperatures

☐

B Reliance on non-renewable energy

☐

C Waste products that are the raw materials for other processes

☐

D Dispersal of elements so they cannot be re-used

☐

08 . 2

Explain why nitrogen fixation by bacteria is more sustainable than the Haber process.

[2 marks]

08 . 3

Explain why incineration of wastes is less sustainable than natural decomposition.

[2 marks]

5

09

Figure 1 shows the estimated populations of sea otters, sea urchins and the area of kelp forest along part of the coast of California between 1960 and 2010.

Figure 1

09

1

Describe the relationship between the three variables shown in Figure 1.

[3 marks]

09

2

Explain the relationships shown in Figure 1.

[3 marks]

09 . 3

Give **two** other examples of human over-exploitation of one species affecting the population of another.

[2 marks]

1

2

09 . 4

Explain why the loss of beavers or forest elephants can cause the decline of many other species.

[2 marks]

.....

.....

.....

.....

10

10 . 1

Discuss the reasons why the conservation of biodiversity is important for human society.

[9 marks]

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

.....

Do not write outside the box

Extra space

10 . 2

State what is meant by **biodiversity**.

[1 mark]

10

Do not write outside the box

Write an essay on one of the following topics.

1	1	.	1
---	---	---	---

Discuss the methods that can be used to conserve biodiversity and evaluate their effectiveness.

[25 marks]

OR

1 1 . 2

Discuss how an understanding of energy flow and the manipulation of food species can be used to increase food production sustainably.

[25 marks]

Indicate which question you have answered by writing its number, **11 . 1** or **11 . 2**, at the top of your answer.

[illegible]
