

Questions by topic: Global climate change - Set 2 (30 marks)

Answer all questions in the spaces provided.

0 1

A low-lying coastal town in eastern England is at risk of flooding from rising sea level and more intense rainfall.

0 1

. 1 Describe **three** ways the town could adapt to the increased flood risk.

[3 marks]

1

2

3

0 1

. 2

Explain the circumstances in which managed retreat may be chosen instead of coastal defences.

[2 marks]

0 1

. 3

Describe **two** impacts of higher temperatures on transport infrastructure.

[2 marks]

Figure 1 shows the monthly flow of a river in South America that is fed partly by glacier meltwater, in 1990 and 2020. The glacier feeding the river shrank considerably between the two dates.

Figure 1

0 3

1

Compare the river flow in 1990 and 2020.
